KORAKS Alüminyum Konya Özel Büsan Organize Sanayinde kurulmuştur. Ürünlerin üretiminde ileri teknoloji ürün olan cnc torna ve işlem merkezleri kullanılmaktadır.

Üretim sırası ile Cnc işlem, mekanik işlem, polisaj ve eloksal işlemlerinden fabrika içinde geçmektedir. Elokşalımız teknik eloksal olup, eloksal kalitesinin yüksek olması için özel kimyasallar ve ozmos su sistemimizde kullanılmaktadır. Ürün kalitesini ön planda tutan firmamız eloksal tespit işleminde sıcak tespit metodunu kullanmaktadır.

Ürettiğimiz aksesuarlar tamamen standart yapıya oturtulmuştur. Yüksek kalite ilkesi benimsenmiş üretim prosesleri bu doğrultuda yapılandırılmıştır. Üretilen aksesuarların profilleri ve montaj ekipmanları da satış portföyümüzün içindedir.

KORAKS ALUMINIUM was established at Konya Private Büsan Organize Sanayi. CNC lathes and operation centers have been used in the production centers which are the developed thecnology productions.

The producing facilities in the factory are used as CNC operations, mechanic operations, polisaj and eloksal operations . Our eloksal is a technical eloksal which is being used . In order to keep eloksal quality high , we use spesific chemicals and ozmos water in our system. Our firm uses hot grab iron method in eloksal fixing in order to keep production quality in the first row .

The accessories which we produce, completely fixed into a Standard structure. High quality principals adopted and the production processes configured in this direction. The profiles of the produced accessories and the mounting equipments are also in our selling portfofilos.
